From there, you can further sort by "Where they Work" or "Where they Live" to narrow your search.

The screenshot shows the LinkedIn alumni page for the University of California, Davis. The page header includes the UC Davis logo, the university name, and a 'Following' status. Below the header, there is a navigation menu with options like Home, About, Insights, Life, Jobs, and Alumni. The main content area displays 11,934 alumni, with filters for start and end years (1900-2019) and a search bar. A list of degree programs is shown, including Computer Science, Mechanical Engineering, Electrical and Electronics Engineering, Computer Engineering, Civil Engineering, Chemical Engineering, Aerospace, Aeronautical and Astronautical/Space Engineering, Engineering, Information Technology, and Program and Project Management. Two charts are visible: 'Where they live' and 'Where they work'. The 'Where they live' chart shows the number of alumni in various geographic areas, with the United States having the highest count at 11,490. The 'Where they work' chart shows the number of alumni at various companies, with Intel Corporation having the highest count at 279.

| Where they live                      | Where they work                               |
|--------------------------------------|---|
| 11,490   United States               | 279   Intel Corporation                       |
| 6,199   San Francisco Bay Area       | 270   University of California, Davis         |
