When our students faced adversity, you gave

313 gifts totaling
$105,286
to departmental Excellence Funds, the college’s Student Hardship Fund, LEADR and the Engineering Student Design Center.

Your impact can best be described by a student who abruptly went home to care for sick family members while continuing school, holding down a part-time job and caring for younger siblings:

“Words cannot express how grateful my family and I are for your generosity and kind words! Thank you so much!! This has been a very challenging experience but I am grateful!”

— 4th-year biomedical engineering student
