

# UC Davis College of Engineering

## Donor Impact Report 2019-2020

**\$14,957,384**  
donated by  
**1,195 donors**

**Your generous gift provided...**

**130**

technology kits to students to complete their projects remotely for ENG 3: Intro to Design Engineering.

**425**

first-year students the opportunity to be matched with recent alumni mentors through the Mentor Collective platform.

**42**

student clubs support needed to gain leadership, hands-on project experience and networking opportunities at regional and national conferences.

**272**

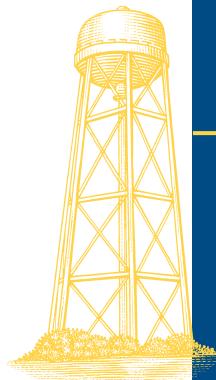

students with scholarships or fellowships through the college or their home department.

**1,169**

students the opportunity to attend remote events and programming led by the Student Startup Center.

**60**

AvenueE program students with scholarships, mentoring and advising to ensure a smooth transition from community college to UC Davis.

### Give Day Spotlight

When our students faced adversity, you gave

**313** gifts totaling  
**\$105,286**

to departmental Excellence Funds, the college's Student Hardship Fund, LEADR and the Engineering Student Design Center.

Your investment made it possible for the college to support students directly with **financial assistance** and establish **programs to loan laptops and textbooks to students**.

Your impact can best be described by a student who abruptly went home to care for sick family members while continuing school, holding down a part-time job and caring for younger siblings:

**“**Words cannot express how grateful my family and I are for your generosity and kind words! Thank you so much!! This has been a very challenging experience but I am grateful! **”**

— 4th-year biomedical engineering student
